“CLEAN PLANTS” PROGRAM

Foothills Nurseries received its designation, in 2009, as a certified nursery in the “Clean Plants” Program administered by the Canadian Nursery Certification Institute.

By implementing systems and procedures based on the “Clean Plants” program, nurseries minimize the risk of moving possible pests and diseases through the movement of plants within Canada.

We have continued to maintain our status by following the requirements of this excellent program. We believe these protocols and procedures benefit all nursery operations as well as our industry’s customers.

Facility: **Foothills Nurseries Ltd.**

Foothills Nurseries is dedicated to the concept of **Green for Life** through its membership in **L.A.N.T.A.** and **C.N.L.A.**
